Driver Safety Training

Driver Safety Training

Driver Safety Training is applicable to any organisation who operates or uses minibuses. This training aims to improve passenger safety by providing the necessary skills for those who have responsibility of driving passengers with disabilities. It provides information to allow drivers to understand and meet the needs of their passengers, it also covers legal, practical and safety issues.

Driver Safety Training Course Content

This Driver Safety Training course is a comprehensive training package delivered over three days, however modules can be taken from this to tailor a one or two day course as required. The three day course typically includes the following:

First Day

- Driver Wellbeing
- Good Driver Practice
- Disability Awareness
- Accident Reporting
- *Emergency/Basic First Aid* (including CPR and use of an AED)

Second Day

- *Manual Handling*
- Safeguarding of Vulnerable Adults
- *Infection Prevention Control (IPC)*

Third Day

- *Wheelchair Clamping & Lifting Equipment (CLE)*
- Communication Skills
- Emergency Evacuation Procedures / 5-Steps of Safety

Method of Delivery

Training is facilitated through PowerPoint presentation, discussions, practical demonstrations and practice.

Course Duration

The full course is 3 days duration. The maximum capacity for this is 10 participants.

Assessment

All participants will be required to participate fully in all practical elements of training, they must also complete learning questionnaires for several modules.

Certification

Certification is provided by Donegal Safety Services Ltd on successful completion of the course and will be valid for 2 years.
